Frost protection setting	45°F / 7°C				45°F / 7°C	
Operating noise	49.7 dB(a)				49.0 dB(a)	

¹ This is our recommendation as the manufacturer. Check local codes for compliance if necessary.

Elegant surface-mount design is perfect anywhere quick heat is needed. Designed and made in Germany, these heaters are extremely quiet in operation and will quickly warm an area or maintain a comfortable temperature.

They are an elegant and simple solution to add supplemental heat to a room that may not get quite enough heat from a central source, such as a room not receiving enough heat from a mini-split retrofit.

All models are designed with a frost protection setting. The lowest thermostat setting will maintain above freezing temperatures in an appropriately sized space.

The CKT is a timer version of the CK. A timer will temporarily output maximum heat from 0 to 60 minutes to quickly warm a space. When the timer goes off the unit reverts to the thermostat setting to maintain comfort.
